

Health and Safety Policy Statement

Date this policy comes into effect:	January 2019 (Coronavirus review September 20)
Next review	January 2022

ALL STAFF AND VOLUNTEERS WILL BE ISSUED WITH THIS POLICY AND WILL SIGN TO ACKNOWLEDGE THEY HAVE READ IT

ALL VOLUNTEERS RETURNING TO WORK AFTER THE CORONAVIRUS LOCKDOWN WILL BE ASKED TO AGREE THIS POLICY AS PART OF BEING ABLE TO VOLUNTEER

Volunteer Action has responsibilities in respect of health and safety towards both paid staff, volunteers and service users. Equally, staff, service users and volunteers have an obligation to take reasonable care in all they do and to comply with any instructions or guidance given to them on health and safety issues RELATING TO Volunteer Action's services.

Within the office

The risks associated with the administration of the organisation from its offices in Fletton House are no different from those of any other small office, and relate primarily to the use of equipment (computers, copiers and kitchen equipment) and emergency evacuation of the building. **Volunteer Action** will ensure that all equipment is maintained in good order and electrical items are tested annually, such that any risk to staff and volunteers during proper use in accordance with any instructions given is minimised. **Volunteer Action** will ensure that staff and volunteers are trained in the safe use of the equipment; it will also ensure that any hazardous substances (e.g. cleaning materials) are clearly identified. All staff must be aware of the evacuation procedures both as issued by Volunteer Action and Oundle Town Council. Staff must take responsibility for advising visitors to the office of the correct procedures.

During the Coronavirus crisis VA will take additional precautions as set out in appendix ii

See appendix ii and appendix iii.

While carrying out tasks for clients

The work of Volunteer Action volunteers on behalf of clients may be undertaken in a wide variety of environments. A volunteer risk assessment is included with this policy, which will be updated as and when any new risks are identified. **Volunteer Action** will strive to identify any specific risks which might be encountered and will maintain a set of guidance notes to mitigate any identified risks as much as is possible. Equally, it is for staff and volunteers to take particular care in examining and assessing the risks attached to any particular assignment and, if these risks give grounds for any concern whatsoever, to refer to the Manager for advice. Volunteer Action includes training in

Lone Worker safety as part of the induction process and offers training in Manual Handling and the use of the wheelchair as and when required. **Where appropriate we will carry out individual risk assessments.**

See appendix I **including Coronavirus amendments**

Service users

Services users are expected to comply with the law and with reasonable requests to protect themselves and others Examples of this may include:

- Wearing seat belts when being transported.
- Refrain from smoking for the duration of the service being provided.
- Keep animals secure.
- **During the Coronavirus crisis, passengers will be asked:**
 - To book only essential trips
 - To avoid the use of cash and cheques whenever possible – we will collect money by card monthly
 - To sit in the back where possible
 - To wear a mask unless medically exempt
 - To reveal any exposure they may have had to the virus when asked
 - To travel alone unless absolutely necessary to have a companion/carer
- **During the Coronavirus crisis, members of the befriending scheme will be asked to individually agree the precautions to be taken to resume visiting**

Insurance

Volunteers and staff carrying out tasks allocated to them by **Volunteer Action** are covered by our public and employers liability insurance policy against claims for compensation in respect of injury to themselves or others or damage to property occurring while completing those tasks, except where such claims would be covered by compulsory insurance. Specifically, this means volunteer drivers will be covered by their own car insurance for the time when a Volunteer Action passenger is in their car. Our insurance only covers limited protection of no claims bonuses and the time when our volunteer drivers are supporting passengers outside their vehicle. The value of any compensation payable is reduced for everyone above the age of 75.

Anyone using their car in connection with **Volunteer Action** work should inform their motor insurer (this will not usually affect their insurance premium). Failure to do so may invalidate the policy during such journeys.

Volunteer Action does not insure against the loss of personal property of staff and volunteers; this remains the responsibility of individuals.

An accident book is kept in the Volunteer Action office. It is the responsibility of all staff and volunteers to ensure that any accident in which they are involved or of which they are aware is recorded in that book.

During the Coronavirus crisis additional guidelines from our insurers will be shared as soon as possible.

Appendix iii: Emergency Evacuation Procedure at Fletton House

1. All volunteers and employees are required to sign to say that they have read this procedure and the fire evacuation procedures recommended by the landlord, Oundle Town Council (OTC).
2. In the event of a fire or other need to evacuate the building, all office personnel should follow the procedure provided by OTC (attached).
3. Only attempt to leave the building if there is safe passage. This will NEVER include using the lift. Remember the fire doors are there to keep you safe.
4. There are fire doors on every office and stairwell that will keep people safe for a minimum of 30 minutes. These doors MUST all be closed on hearing the fire alarm.
5. The central stairwell and the fire escape stairs in The Oundle Suite are protected by fire doors and provide a safe passageway to the muster points. You will be safe behind these doors for a minimum of 30 minutes. If you have limited mobility, Volunteer Action recommends that you wait behind a fire door, only attempting to use the stairs if you can do so unaided.
6. Volunteer Action do not recommend that you stop to fight a fire with an extinguisher. Fire marshals are provided by OTC.
